

International Conference on Knowledge Management ICKM-2007 Vienna

The conference takes place in the heart of Vienna. It brings together practitioners, developers, academics and users in the different areas of knowledge management. An industrial workshop in the area of innovation management bridges the gap between academia and practitioners. The conference and the workshop serve as a platform for networking, practical applications and exchange for research ideas.

Authors are invited to submit unpublished work on all aspects of knowledge management. Specific topics of interest include but are not limited to the following:

- Data Mining (store/discover/propagate)
- Technologies for Knowledge Sharing
- Learning Technologies
- Management and Measurement of Intangibles
- Optimization of Organisations (Business Process Management)
- Assessment Methods
- Innovation Methods
- Social Networks and Psychological Dimensions
- Case Studies on Collaboration
- Tools for Knowledge Management

Time:

Monday 27. August & Tuesday 28. August 2007.

Place:

Hotel Hilton Vienna
